

Job Position

Architectural Revit Technician

Location

Mankato, MN
Sioux Center, IA

Description

Oleson + Hobbie Architects (OHA) is a full-service architecture, interior design, and planning firm with offices in Mankato, Minnesota and Sioux Center, Iowa. We specialize in creating thoughtful environments across a wide range of project types, including religious facilities, K-12 schools, higher education, healthcare, hospitality, corporate offices, financial institutions, municipal buildings, and industrial facilities. Our mission is to be a trusted, collaborative partner delivering inspiring design through experienced dedication, integrity, and a commitment to adding value to every project.

Revit Drafting Technician:

OHA is seeking a detail-oriented and technically skilled Revit Drafting Technician to join our design team. This role is ideal for someone passionate about architectural drafting, with strong proficiency in Revit and a collaborative mindset.

Position Overview:

As a Revit Drafting Technician, you will support architectural teams by producing high-quality construction documents and digital models. You'll work closely with project managers and designers to translate design concepts into precise technical drawings, contributing to a wide range of project types and scales.

Key Responsibilities:

Drafting & Documentation:

- Prepare complete architectural drawing sets using Revit.
- Assist in the development of construction documents and design details.
- Maintain accuracy and consistency across drawing sets and models.
- Support project teams in meeting deadlines and quality standards.

Software & Technical Skills:

- Utilize Revit Architecture and AutoCAD for drafting and documentation.
- Create and modify Revit families as needed for project requirements.
- Coordinate digital files and models with internal teams and consultants.
- Stay current with software updates and best practices.

Collaboration & Support:

- Work closely with project managers, designers, and consultants.
- Participate in internal reviews and contribute to design discussions.
- Support quality control efforts and adherence to firm standards.
- Assist in integrating engineering systems into architectural models.

Qualifications:

- Associate's degree in Architectural Drafting and Design or related field.
- Minimum 3 years of professional experience using Revit.
- AutoCAD experience preferred.
- Strong understanding of construction systems and detailing.
- Basic knowledge of civil, structural, mechanical, and electrical systems.
- Proficiency in Windows environments and office software (Word, Excel, email).
- Excellent communication and organizational skills.
- Self-motivated, team-oriented, and eager to learn and grow.

What We Offer:

- Participation in a wide range of project types and sizes.
- Competitive compensation with a comprehensive benefits package.
- Flexible scheduling and remote work options (based on role and trust).
- Pathways for advancement into Project Designer and Project Manager roles.
- Exposure to all phases of design and construction.
- Opportunities to work directly with clients and consultants.
- Collaborative and supportive work environment.
- Mentorship and professional development encouraged.
- Mission-focused on integrity, collaboration, and client satisfaction.

OHA is a close-knit, collaborative team with a flexible, people-centered culture. Our studio encourages open design dialogue and is deeply client focused. We value loyalty, trust, and a shared passion for purposeful architecture. This is a great opportunity to join a vibrant, growing firm where you'll work closely with other design professionals in a dynamic, supportive environment. We're committed to exceptional client service and fostering a positive work life balance.

If you meet the qualifications listed above, we encourage you to apply with your resume and cover letter. Send a link to your information or a PDF to: Heather@oharchitects.com Subject: Architectural Revit Technician
